OPTIONS
BOOK

Let us customize it *Just for You!*

No two families are the same. No two people are the same. And we believe no two homes should be the same. That's why we are so excited to customize your home just for you.

Let this book guide you through some of our available options. It will let you create your own unique home - exclusively for you. As a compliment to this book, request a copy of our Platinum Series Floor Plans book to review numerous plan ideas to use as they are or as a starting point to edit to your heart's content.

What's more impressive is that all this Luxury is Affordable! We have searched for the most comprehensive selection of value for money upgrade options. We understand that everyone has a schedule and a budget. Feeling overwhelmed? Ask about our Classic Series homes.

**So, happy reading. Take your time.
Building a new home isn't something you
do every day. Make sure you do it well.
Make it yours.**

About

Northstar Systembuilt was founded in 1995 in Marshall, MN. Starting off as a **family-owned business**, Northstar was built up on good old-fashioned quality and personalized service. While the business has now grown to a thriving and **well-recognized manufacturer of modular homes**, these attributes have not been compromised. To facilitate further growth of Northstar, we relocated our manufacturing facility to **Redwood Falls, MN** in 2013 into a large modern factory. Since then, we have acquired another facility for production and have expanded both our onsite and offsite storage. We have completed an addition to our main production line, which was completed in 2022 as well as have also added a second production facility in Watertown, SD in June of 2022 to assist with the market demand for our product.

Our stringent quality control program assures you of a finely finished state-of-the-art building. With our tremendous buying power and consolidated ordering system, we are able to pass on huge savings to yourself, offering you a **quick, hassle-free, cost-effective** realization of your building ambitions.

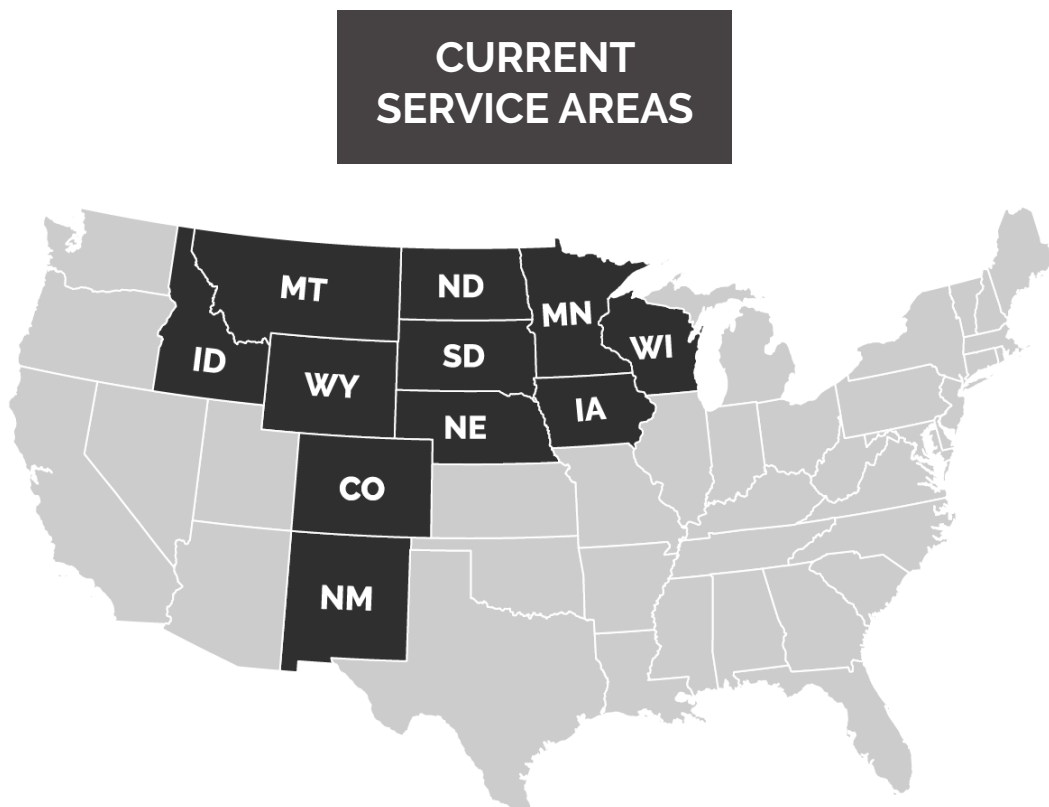

We take every interest in your particular needs to enable us to tailor a solution that not only meets, but exceeds them. Our creativity and flexibility in design have made us the preferred supplier to many clients across the Midwest.

Northstar Systembuilt

OUR DEALERS

Northstar does not retail directly to the general public, but has an **exclusive dealer and builder network located throughout the Midwest** to the foothills of the Rockies. Our dealers have model home(s) on their lots for viewing, a selection center with the color options displayed in this brochure and much more! **Combining their experience and your vision will enable you to work together to create the home of your dreams!** Consult with the dealer or builder for pricing on an entire package - home, basement, garage, deck, etc.

Visit our website - www.northstarsb.com - or call us directly to be redirected to a dealer that will be best suited to serve your needs.

OUR TEAM

Northstar Systembuilt is a workplace where **humor and hard work go hand in hand**. Staff share the passion for the company through being included in business development and planning. Our core values attract staff that truly desire to make a difference.

Our team enjoys a well organized structure but are still given the latitude to operate autonomously without the burdens of a hierarchy – in plain English, we work together and we have fun!

FACILITIES, EXPERIENCE, & CULTURE

Clients choose us because they trust us. We've got the experience, the facilities, but most of all we're the sort of bunch they want to deal with.

Redwood Falls, MN Crew

Watertown, SD Crew

SUPERIOR CONSTRUCTION

- All electrical outlet boxes mounted to studs - **outlets remain intact and do not loosen over time**
- Insulated Rim Joists
- Batt insulation at energy heel of truss - **reduce ice dams and heat loss**

HAPPY CLIENTELE!

"It is too beautiful for words. I'm not kidding...I had a dream for this house, and it far exceeds anything I could have imagined. The craftsmanship overall is so gorgeous. Your recommendations and expertise were invaluable. I could not be happier with the look of the interior and the exterior. I know we had some bumps in the road along the way, but the end result was worth it and this is a project that everyone can be really proud of. All I had was an idea on paper and you guys brought it to life. I am eternally grateful."

TERRY R. - Northfield, MN

Quality PRODUCTS

Northstar's team of craftsmen have the desire to perform quality work, coupled with that desire is the **installation of quality products with great warranties and track records to create an exceptional, sustainable home - inside & out!**

AN ABUNDANCE OF PLANS TO BROWSE

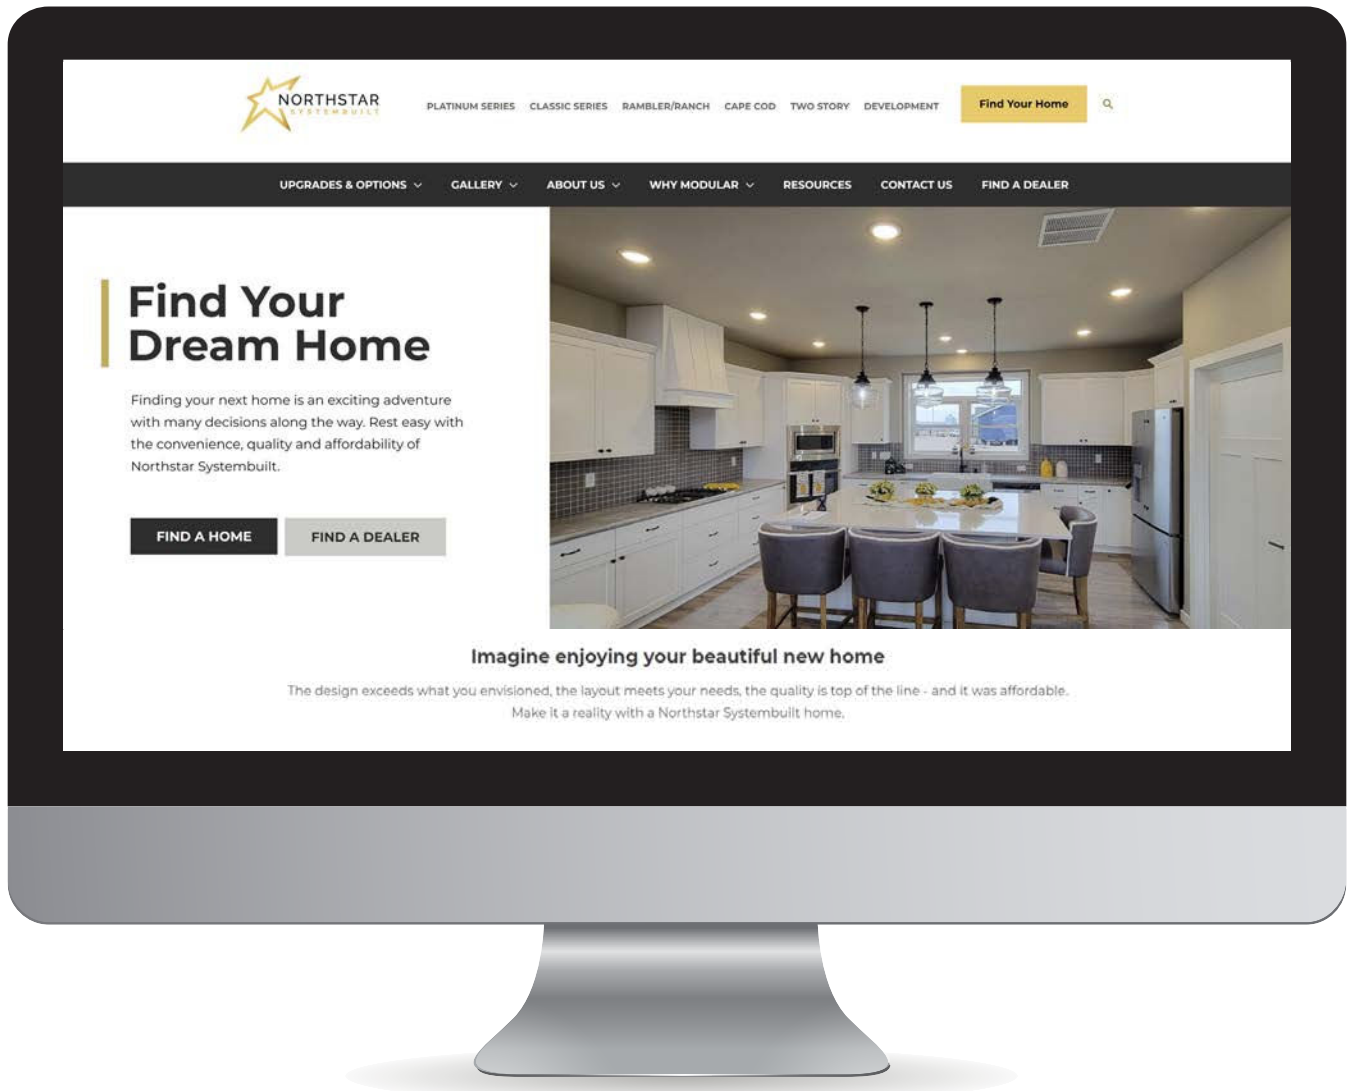

Our **Find a Home** and **Floor Plans** tabs make it very easy for you to find plans! You can browse by Style, Series or even search for a specific number of bedrooms, etc. We even have an option for you to upload a napkin sketch!

ENDLESS OPTIONS & UPGRADES

All of our options & upgrades are showcased both in this **Platinum Series Options Book** and on our **easy-to-navigate, mobile-friendly website!**

It's your chance to design your home exactly how you've always dreamt it should be! Choose from our hundreds of options to customize your home or let us know what you have in mind and we'll prep for on-site installation of the finishes or fixtures of your choice.

Remember Luxury is Affordable!

COME CHECK OUT OUR *Factory*

Northstar manufactures using a moving production line.
Every building moves through 9 stations within our factory.

Each station has the tools and materials required for the trades to
do their portion of the work before it moves on to the next station.

The Manufacturing Process

- | | | | |
|-----------|---|-----------|--|
| 01 | FLOOR FRAME ASSEMBLY,
DECKING & ROUGH PLUMBING | 02 | WALL FRAME ASSEMBLY |
| 03 | WALL SET | 04 | ROOF ASSEMBLY, ROOF SET
& ELECTRICAL |
| 05 | BACK INSULATE
& DRYWALL SET | 06 | TEXTURE, PAINT &
EXTERIOR SHEATHING |
| 07 | WINDOWS, SIDING
& SHINGLES | 08 | CABINETRY, DOORS, FINAL
PLUMBING & INTERIOR FIT-OUT |
| 09 | FINAL INSPECTION/TESTING | 10 | CLOSE-UP & SHIPPING PREP |

Schedule a factory tour to see it for yourself! It really is amazing - using jigs, cranes and state of the art equipment, we are able to build many houses simultaneously inside our factory! Our craftsmen are experts in the areas that they work in.

EXTERIOR OPTIONS

EVOLVE STONE

The Future of Stone The next evolution in decorative stone is here. Evolve Stone® is the most innovative stone veneer product to date, surpassing its predecessors in value, ease and accessibility. Formulated from patented Evolve Material, it is the very first stone cladding that can be face nailed in the same fashion as traditional siding, reducing installation time dramatically. Like natural stone, this proprietary material holds its color throughout, so it can be cut to fit on-site while maintaining the highest appearance standards.

Thermo-Tech Double-Hung Windows

- Top and bottom sashes tilt in for ease of cleaning.
- Flush mounted tilt latches.
- Smooth gliding balance system uses constant force coil that needs no adjusting and little or no maintenance.
- Die-cast lock and keeper hardware draws in the sash for secure and weather tight locking.
- Slope sill directs water runoff even in a driving rain.
- Dual weather-stripped interlocks at the meeting rail and double layered weather-stripping on the sashes maximize resistance to air, water and dust infiltration.

UPGRADE BLACK VINYL WINDOWS

White Interior

Black Exterior

Gerkin Double-Hung Windows

- Triple Weatherstripping: The 4800 sash and interlock have triple weatherstripping providing for a very tight window.
- Patented Jamb Design: Our "Candy Cane" jamb design allows a full jamb-to-jamb interlock and equal dimensional sashes with a clean traditional appearance.
- One Piece Sloped Sill: Our double hung utilizes a fully sloped, weepless sill design. This provides for excellent drainage and air infiltration performance. Die-cast lock and keeper hardware draws in the sash for secure and weather tight locking.
- Slimline beveled frame appearance and equal lite sash offers maximum open viewing.
- Aluminum Reinforcement: Both sashes are reinforced with extruded aluminum stiffeners around the full perimeter of the sash. The sill is also reinforced with an aluminum stiffener.

UPGRADE FIBERGLASS WINDOWS

White

Black

Pella Fiberglass Windows

- Rot- and corrosion-free
- Our extremely durable fiberglass will never rot or corrode and is naturally resistant to water and bugs.
- Take the heat (and subzero cold)
- Tested from -40°F to 180°F , our fiberglass is engineered to withstand subzero cold, the most extreme heat and the rigorous performance requirements of a commercial building.
- No painting or refinishing
- With a heavy-duty powder-coat finish, Pella fiberglass windows resist chipping, chalking and fading — so you never need to paint or refinish.
- Exceptionally energy-efficient
- Energy-efficient dual- and triple-pane glass options with argon help slow the transfer of heat, keeping your home more comfortable year-round

Just ask about our '**omit flooring option**' and we'll leave your floors prepped and ready to be finished in whatever flooring type you prefer.

MSI

Building with Northstar was a great experience from start to finish. We felt the customization process and attention to detail is what sold us on Northstar Systembuilt. Our dream home plan started as a sketch on a napkin and was made reality by Northstar. We loved our home the moment we saw it in the plant being built and have loved it ever since it was craned on and put together.

They have built us a quality home and stood behind everything that they did. We would not hesitate to have them build us another home. As a matter of fact, that is our plan when we retire."

RYAN & ANGIE V

CABINETS

WHAT IS FULL ACCESS CABINETS?

1. We use white, 5/8" thick eco-friendly, TFL Panels with PVC edgebanding in a matching color, for the complete construction of our cabinet boxes. Absolutely no 1/4" panels anywhere!
2. Flush bottom, top, and finished ends for a furniture like appearance.
3. Full depth, adjustable shelves to maximize storage space.
4. No lip or center dividers to give the most access and storage space inside your cabinets
5. Steel, fully-concealed, clip-on/off, self-closing, 110°, 6-way adjustable hinge with a lifetime manufacturer's warranty and soft close operation.
6. Our space saving drawers use a double wall, full extension metal side system with integrated soft close that provides 11% more room inside than face-frame cabinet drawers. The back and bottom are made using 5/8" TFL for max strength and durability.

SPECIES & DOORS

OAK

Oak, is characterized by its wide open grain patterns and extreme durability. Variations in grain pattern and color, small knots and pin holes are attributes of nature giving oak its distinctive beauty. Natural occurring color variation includes light tan to medium red and brown. These characteristics are more prominent in light finishes.

MAPLE

Maple offers a smooth, closed grain pattern, generally off-white in color with varying tones of light pink and yellow-brown. Maple contains a resin that causes the wood to turn amber as it ages. This will be more noticeable with light finishes.

RUSTIC HICKORY

Hickory is known for its strength, open grain and distinctive color variation within each piece. Ranging from light to deep brown, Hickory's unpredictable color spread is especially noticeable in light finishes. Rustic Hickory incorporates large sporadic knots and pin holes. These characteristics are acceptable and not considered warranty defects.

RUSTIC ALDER

Rustic Alder has a fine, straight-grain pattern and even texture. The color is a light red brown that stains evenly. Rustic Alder includes character spots, knots, and blemishes which do not affect the product durability. As a softer hardwood, alder can be easily dented or scratched. These characteristics are not considered warranty defects.

GRANITE COUNTERTOPS

Granite is an igneous rock, whose by nature composition varies depending on the location from which the rock is quarried. This supports the fact that granite is available in almost a limitless variety of colors, textures, and patterns, which is why no two patterns are the same.. If you're in search of a gorgeous, resilient stone, granite may be your answer.

ELECTRIC FIREPLACE OPTIONS

HEAT & GLO SIMPLIFIRE

Electric Fireplace

- 100% efficient, adjustable heat that costs just pennies an hour to operate
- Enjoy the ambiance with or without heat
- Never replace bulbs thanks to LED flame technology
- Intuitive, multifunction remote for control at your fingertips
- Zone heat your space to remain comfortable, while reducing your monthly bills

ALLUSION PLATINUM

Electric Fireplace

The Allusion Platinum Fireplace can make your home a unique reflection of you with a dazzling upscale linear electric fireplace. From a large viewing area with minimal frame

- 51" wide and 19-1/2" high, 4 flame color choices, 13 ember bed color choices for complete customization
- Enjoy year-round with or without the heat
- Provides a clean look that is fully recessed on a finished 2 x 6 wall
- Mounted 16" from Floor (Bottom of Fireplace)

SIMPLIFIRE ALLUSION

Electric Fireplace

The Allusion electric fireplace series embraces modern design by combining linear proportions with a multitude of flame and LED ember bed lighting themes. Additionally, intuitive operations exemplified by the standard remote and touch controls on the fireplace front.

- 48" wide and 20" high, 4 flame color choices, 14 ember bed color choices for complete customization
- Enjoy the ambiance with or without heat
- 100% efficient LED technology with adjustable heat
- Mounted 16" from floor (to bottom of fireplace)

GAS FIREPLACE OPTIONS

HEATILATOR MDV3732 DIRECT VENT

Gas Fireplace

- Standard blower and remote control provide efficiency and convenience
- Adjustable flame height allows you to control heat output. In case of a power failure, standard IntelliFire™ ignition with battery back-up will continue to operate
- Standard ANSI-compliant firescreen eliminates glass glare and provides a measure of protection from accidental contact
- Multi-function remote control

WOOD FIREPLACE OPTIONS

HEATILATOR AC36

Wood Fireplace

The Accelerator features meticulous craftsmanship for robust fires and an impressive appearance. Multiple doors and traditional or herringbone brick panels add individual style to the Accelerator's valued performance.

- 36" viewing area.
- Radiant or heat-circulating options
- Available with 1/2 log, barnwood, or traditional shelf mantles only.

HEATILATOR CONSTITUTION

Wood Fireplace

Enjoy intense, efficient fires in any environment. This wood-burning powerhouse exceeds the strictest environmental standards in the nation. Proven technology delivers precision start-up and air control for clean, consistent burns and extended performance. Relax and let the Constitution blaze.

- EPA Phase II Compliant
- Heats 1,000 - 2,600 sq.ft. of space with up to 10 hours burn time from each load of wood
- Choose either the Mantle option or the TV mount; space constraints prohibit both.
- 12" Hearth is required

APPLIANCES

Through ingenuity and innovation, GE appliances answer real-life needs, define trends, simplify routines and upgrade the look and feel of the living space. Next generation features are solving real-life needs. With a forward-thinking tradition that spans over 100 years, today's GE appliances sync perfectly with the modern lifestyle.

Contact us for a price quote on a color if it is not pictured.

GE Appliances offers kitchens that perfectly complement modern finishes, materials and colors. Backed by more than 100 years of purposeful innovations, owners can expect style, lasting quality and features that improve their everyday lives.

COMFORT OPTIONS

UPGRADED INSULATION

R-60 Attic Insulation
(Where Applicable)

R-11 Insulation to all
Internal Walls

Additional R-6 Insultex House
Wrap Insulation on Walls (R-21
standard)

These options are for the homeowner who wants a little **warmth coupled with costs savings**. The additional insulation in the walls as well as the overall R value provide a noise barrier and **coziness unparalleled** throughout the home, especially in cooler, damp climates when your home is covered by a blanket of snow! Choose this option to **reduce drafts and increase energy efficiency**. These options aren't as much seen as it is felt – but it will pay off for the years to come!

STANDARD SPECIFICATIONS

CODES

All homes are built to meet or exceed the following codes:

- International Residential Code
- Uniform Plumbing Code
- Uniform Mechanical Code
- National Electric Code
- State Energy Code
- State Building Code

FLOOR SYSTEM

- 2 x 10 Joists at 16" on center for up to 14'6" wide
- 2 x 12 Joists at 16" on center for up to 16'6" wide
- Double Rim Joists on outside edges
- Triple Center Rim Joists with joist hangers
- Thermax Insulated Rim Boards for continuous insulation
- End Floor Bridging – Floor Supports for added strength
- 3/4" Tongue and Groove OSB Sub-Flooring (Glued and Nailed)

ROOF SYSTEM

- 60# or 40# Load Engineered Trusses at 24" on center
- Timberline Architectural Asphalt Shingle
- 30# Synthetic Underlayment
- 7/16" OSB Exterior Sheathing
- 16" Overhang with 2 x 6 Sub-Fascia
- EDCO Metal Soffit & Fascia
- Ice Dam Protection (ice and water shield), 6' up roof
- Steel Roof Drip Edge
- 5/8" Sheetrock on ceiling - adhered with 2-part foam spray glue to increase strength and minimize possible cracking
- Fold-up end gable trusses with building wrap

WALL SYSTEMS

Exterior

- 2 x 6 studs at 16" on center with 2 x 6 double top plate
- 1/2" gypsum board on walls screwed and glued
- 1/8" Brace board on interior side of longitudinal walls and mating walls, stapled and glued
- 7/16" OSB exterior sheathing for added strength
- Continuous sill seal for increased insulation
- Double 2 x 10 headers over openings
- Intersecting interior walls secured with lag screws
- Drywall on mating wall screwed and glued
- 8' flat ceiling height

Interior

- 2 x 4 Studs at 16" on center
- 2 x 6 Studs at 16" on center for plumbing wall only
- 1/2" Gypsum Board, Screwed as per code requirements

INSULATION

- Walls - R-21
- Roof - R-50 (R-49 to Vaulted areas)
- Rim - R-21
- Batt Insulation at Energy Heel of Truss
- All penetrations in exterior and mod line walls sealed

Request a copy of our **Platinum Series Plans Book** to view our vast array of plans!

PLUMBING & HEATING

- Pex water supply lines with shut off valves run to central location on bottom of joists
- PVC Drain, Waste and Vent Piping stubbed through floor for onsite connection
- Radon Venting installed through walls, to be connected on site
- 8" Deep Stainless Steel Sink in Kitchen
- Moen Single Lever Faucets throughout
- One Piece Fiberglass Tub/Shower Unit
- HVAC boots and registers installed per code
- China Lavatory 1.6 Gallon Water Efficient Toilets
- Ice maker box behind refrigerator/Dryer vent box behind dryer
- Re-vent pipe to all basement homes
- Exterior Frost Free faucet installed at kitchen location

ELECTRICAL

- 200 Amp, 40 Space, Electrical Service panel
- Modern Cordless Door Chime at front door
- TV/Phone jacks strategically placed in five locations throughout the home, rough-in only with pull wires
- Exterior GFCI Outlet
- All boxes mounted to studs
- Smoke and Carbon Dioxide Detectors per code
- Bath fan with LED Light, 80 CFM 1.5 Sones, Energy Star Certified

CONSTRUCTION DETAILS

WALL HEIGHTS

Our walls come in two different heights. 8' is our standard height, but you can upgrade to 9'. Upper cabinet heights change with the different wall heights.

PROW FRONT

A prow front that sticks out 4' from one of the ends of your house can be added as an extra feature to give your house a unique architectural style. The 4' prow length is fixed and does not vary with the width of a house.

BUMPOUTS

6" WINDOW BUMPOUT

- 6" deep
- Up to 20' long
- Great way to add curb appeal
- Can be tied into same size dormer above

14" FIREPLACE BUMPOUT

- 14" deep
- Can be finished with Versetta Stone or siding
- Great way to add curb appeal

BAY WINDOWS

Bay windows are 16" deep with a 45 degree angle on the sides. The side windows are fixed 18" wide (DH1654), but the length of the center segment can be any size-minimum window width to meet egress is 3' by 5'-4" (DH3054).

ROOF PITCHES

5/12 is our standard pitch for a roof, however you can upgrade to any pitch from 4/12 - 8/12.

FACTORY FINISHED VAULTED CEILINGS

For a vaulted ceiling in a house with 8' walls, the ceiling will have a pitch of approx. 3/12, in a 9' wall house the pitch will be approx. 2/12. These pitches are not fixed to the pitch of the actual roof which can be customized to your liking. Trap windows on an end wall will follow the ceiling pitch and not the roof pitch. The pitch of the vault will be lower (less steep) with wider boxes due to the max shipping height of 13'.

TRAY CEILINGS

A section of ceiling can be raised up 6" to create a tray ceiling for added ceiling height.

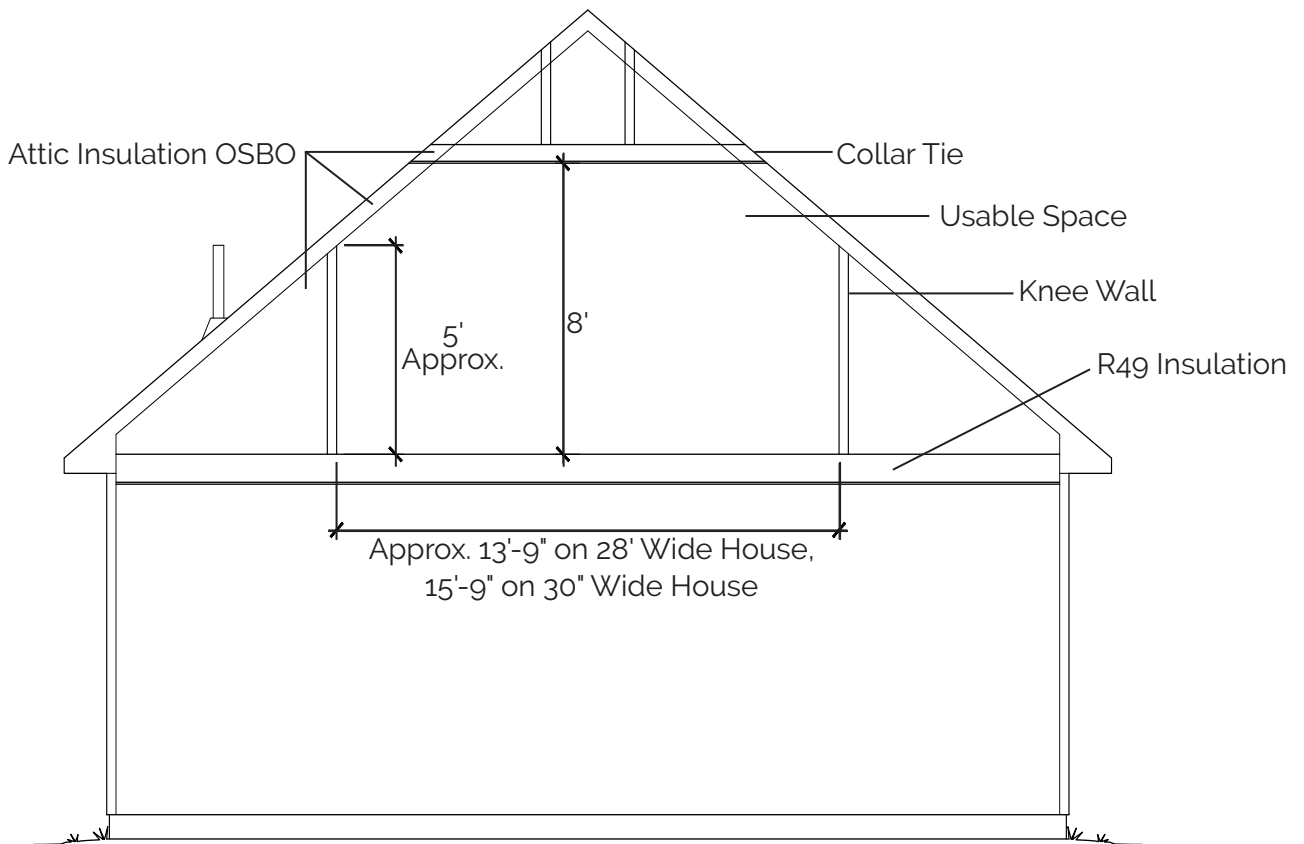

- 6" depth
- 45 or 90 degree angle
- Double tray available (Limited to 22 1/2" wide)

CAPE ROOF PITCHES

Cape roof pitches come with attic space that can either be finished or left unfinished. 9/12 is our cape roof pitch.

ATTIC SPACE-CAPE

The attic space in a cape roof is defined by an approximately 5' knee wall on the sides and an 8' ceiling. The width of the usable space depends on the width of the house but is approximately 13'-9" on 28' wide house, and 15'-9" on 30' wide house.

REGULAR DORMERS

Regular dormers come in 6', 10', 14', 18' and 22' sizes. The double dormer effect can be achieved by choosing a smaller sized dormer to be placed inside a larger one.

OTHER AVAILABLE DORMERS

DOG HOUSE DORMER

- 5/12 or 6/12 roof pitch
- 6' or 9' wide
- 3056E window

SHED DORMERS

- 3/12 roof pitch
- Customizable width
- Customizable window length

FACTORY FINISHED VAULTED DORMERS

Vaulted dormers are a great way to add more height to your ceilings inside. Vaulted dormers, 13' high or under, can be completed in our factory. Due to max shipping height, anything over 13' high must be completed on-site.

ON-SITE FINISHED VAULTED DORMERS

When you want even more ceiling height, on-site finished dormers are not limited to the 13' max shipping height that factory finished ones are. With a width of 24', these true vaults can be any height up to the height of the rest of your roof.

TOWER DORMERS

A tower dormer is a great way to add ceiling height in a factory finished option. A tower dormer is similar to a shed dormer in appearance, and can be combined with a tray ceiling for nearly 10' of ceiling height. Only available with 8' sidewalls

COVERED DECKS WITH RAILINGS

- Available in 6', 8', or 10' railings
- Max gap of 8" between posts
- Double post to center

UNCOVERED DECKS WITH RAILINGS

- Available in 6', 8', or 10' railings
- Max gap of 8" between posts

LEDGERBOARDS

For decks that are being added onsite, we offer an upgrade option to add a ledgerboard complete with flashing ready for the installation of the deck.

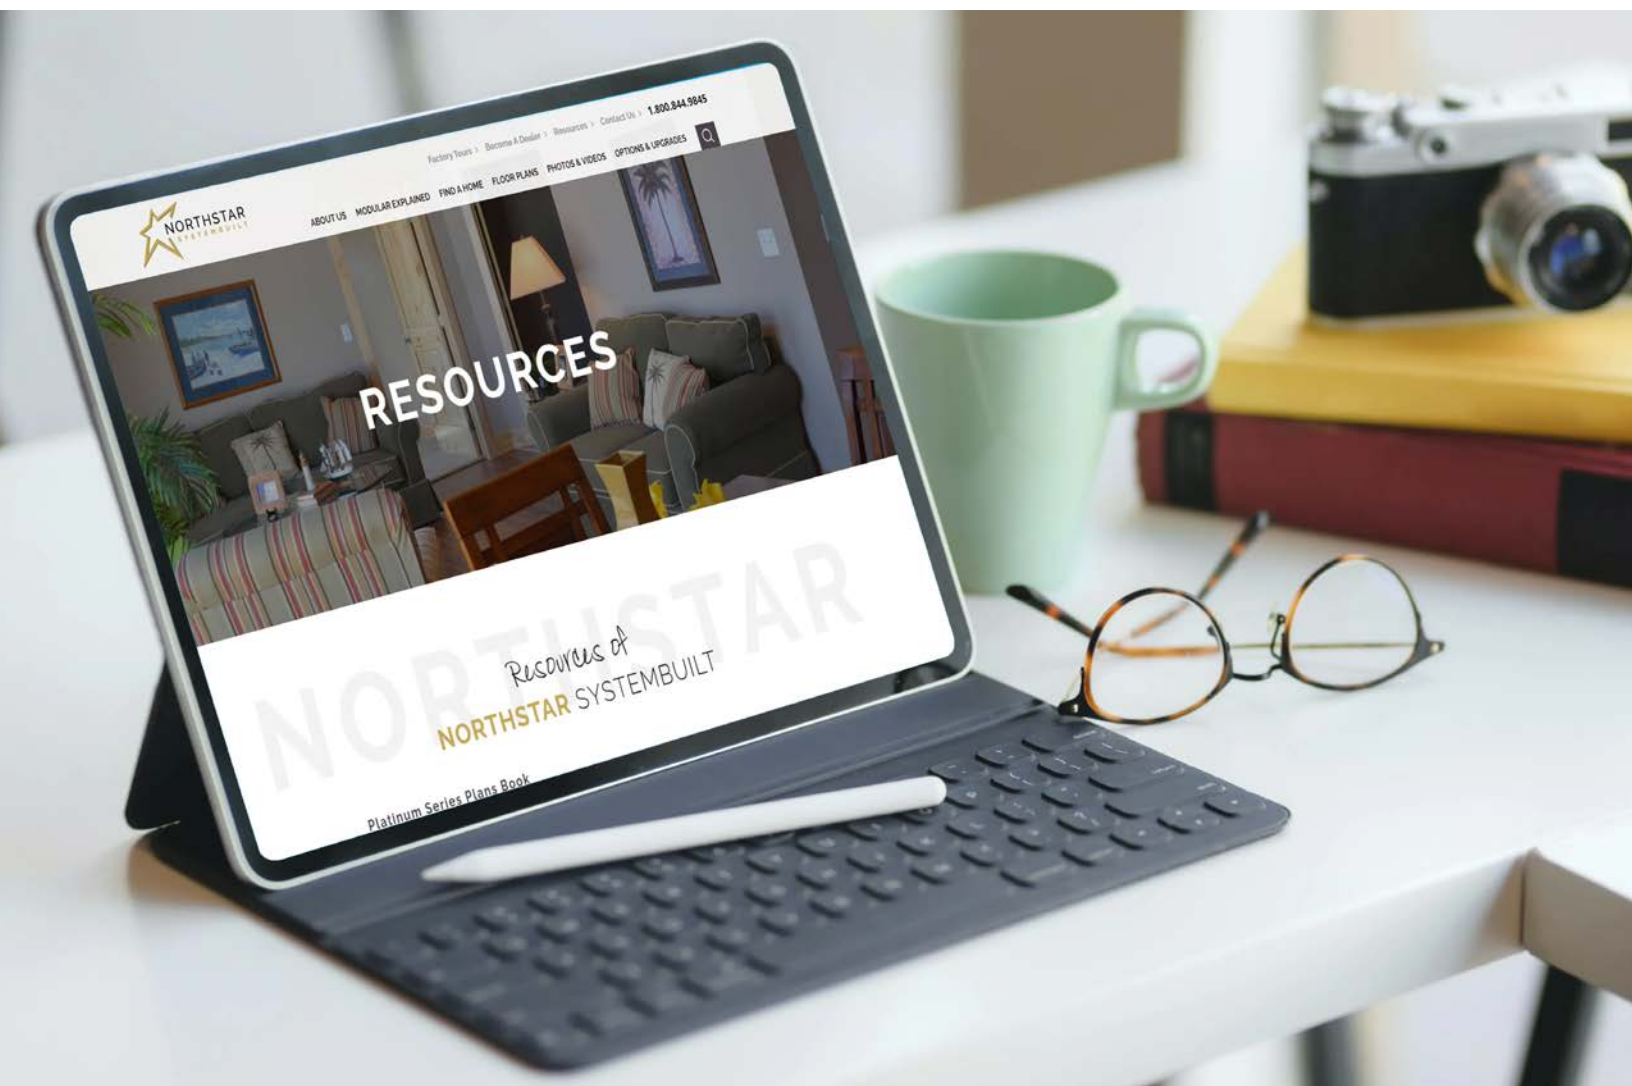

CUSTOMER SATISFACTION

We are committed to keeping our customers happy and satisfied! If you have any questions about our warranty or service please contact our dedicated customer service team!

WARRANTY

PRODUCT WARRANTY

30 Day Cosmetic Warranty -Cosmetic Damage including but not limited to dings, dents, scratches, blemishes to interior and exterior of home including on any item within, installed, part of or on the home including but not limited to windows, doors, siding, trim, flooring, appliances, fixtures, MUST be reported within 30 days after delivery of the home to the site in order to be covered under this warranty. This warranty excludes cosmetic damage covered by original manufacturer's warranty as well as any slight color variation due to inherent differences in appearance, color or finish.

The customer is given specific legal rights that may vary from state to state. Each customer is encouraged to refer to his or her specific rights.

327A.02 STATUTORY WARRANTIES

Subdivision 1.Warranties by vendors.

In every sale of a completed dwelling, and in every contract for the sale of a dwelling to be completed, the vendor shall warrant to the vendee that:

- (a) during the one-year period from and after the warranty date the dwelling shall be free from defects caused by faulty workmanship and defective materials due to noncompliance with building standards;
- (b) during the two-year period from and after the warranty date, the dwelling shall be free from defects caused by faulty installation of plumbing, electrical, heating, and cooling systems due to noncompliance with building standards; and
- (c) during the ten-year period from and after the warranty date, the dwelling shall be free from major construction defects due to noncompliance with building standards.

For additional Subdivisions under this statute, please refer to Minnesota State Statute 327A

Each building fabricated at the listed facility (Section100.00) is warranted to the original purchaser for one year from date of retail delivery by the company. The company reserves the right of deciding the appropriate correction of any defect as per all applicable codes.

All construction methods comply with the applicable codes approved herein at the time of fabrication.

Repair, adjustment or replacement of any defective items manufactured at the plant facility, will be provided free of charge. Non-warranted items excluded.

CONDITIONS OF WARRANTY

All claims must be submitted in writing to their Dealer. Dealer must be allowed reasonable time to investigate claim. Claims must include; home owner's name, address, serial number, date of purchase, and full claim description.

All work to correct claim by dealer, must have the manufacturer's approval.

Items having their own warranties shall apply. Extensions of warranty will be made by the company as required by state laws. Such warranties will be included in shipping packet.

Dealer is solely responsible for any claims, or contracts they make.

EXCLUSIONS TO WARRANTY

- Quality, performance or durability of any finish or product outside of the list of options and upgrades that are offered in our sales materials in which the customer has selected for their home due to preference, for example. We will also not assist with facilitation of any claims with the original manufacturer or distributor of those finishes or products. The homeowner takes 100% responsibility for these products and finishes.
- Any wall or floor issues at the mating line of the modular pieces subject to or due to on-site work.
- Damaged exterior finishes caused by carelessness of on-site workers.
- Damages or losses due to shipping/transportation incidents/conditions (i.e. water damage, theft, etc.).
- Any damage caused by compromising the structural stability of the structure (i.e. cutting through the center rim joists).
- Any damage caused by inadequate ventilation system (i.e. not installing an air exchanger).
- Damage caused by altering factory-installed items or not compiling to any/all applicable building code items, either factory installed or on-site.
- Any damage or loss caused by theft, vandalism, or abnormal weather conditions including but not limited to; rain storms, flooding, hail, snow storms, fires, wind storms, tornadoes, or any act of God.

This serves as the entire warranty issued by the company. The company will not be held liable for any claims or damages outside this warranty, as per state laws.
